

PRESERVING OUR FUTURE

Council Young Leaders 21-22 Class Conference 2022

October 6-8, 2022

The theme for this year's workshop, "Preserving our Future" may seem paradoxical. It is impossible to preserve something that has not yet materialized. But the emphasis is on ensuring the conditions for preserving, protecting, and building our future. At present, we are facing many challenges, ranging from climate change to an ongoing pandemic, from the fragility of supply chains and energy supply to rising inequalities.

In this first conference of the Council's Young Leaders (YL) after the pandemic, we will address four major themes:

- 1) Healthcare Innovation;
- 2) Energy, Sustainability & Geopolitics;
- 3) People, Technology, and Work;
- 4) Culture, Fine Arts, and Media;

The panels will be followed by four breakout sessions where one speaker from each panel will work closely with a group of YL to produce a brief that will be presented at the CONSIUSA Event in Washington in January 2023.
